

# HIDE AND SEEK

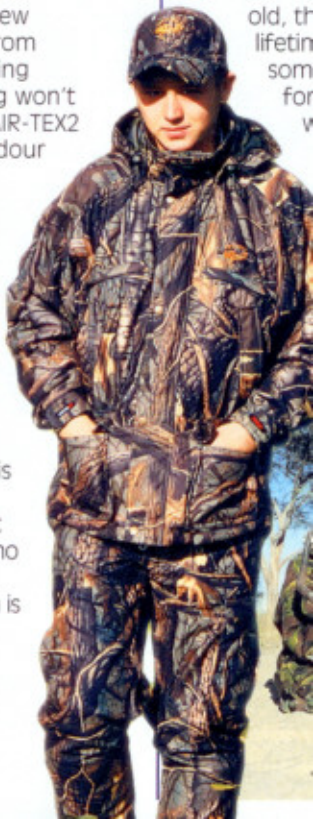

Hello? Where are you? Arctic Outdoor's new invisible Camo suit is perfect for hiding from parents, teachers, your sister, oh, and going shooting of course. What's more, the dog won't be able to track you down either as the AIR-TEX2 membrane and revolutionary Scentech odour blocker help to make the Camo suit undetectable to animals.

Available down to XXS, which is just about spot on for our older Young Shot members, the Camo package is serious stuff – containing underwear, a fleece, braces, a fully waterproof and breathable jacket and trousers plus a baseball cap to complete the look. The jacket features hand warming pockets and the trousers are fully adjustable to ensure no cold air gets in anywhere. All this for just £169 plus p&p.

Young Shot John Matthews tested out the kit in the Welsh hills and reported back: 'The Camo suit is absolutely spot on. It's windproof, waterproof and keeps you warm. The pattern is great for pigeon shooting – I felt completely camouflaged. You can't go wrong!'

■ You can order your Camo suit from Arctic Outdoor at [www.articoutdoor.co.uk](http://www.articoutdoor.co.uk) or by calling 0845 3890370.

*Watch out for the competition in the next issue to win a full Camo kit.*
